

I am commenting on the proposal to weaken the "no call" law in Wisconsin. I feel the law Wisconsin has is a good law and should stand. Any state law that is better/stronger than the federal law should be the one that applies.

Any company that needs to reach a former customer can send them information in the mail. They do not need to make more than 1 phone call which is what Wisconsin allows.

Please do not change Wisconsin's ruling on the "Do Not Call" lists.
